**Weitere Modelle**

# From feedback to live app — overnight

01

Participant feedback: 100 people, 2 hours — who do I talk to?

02

One prompt to Claude (Fable 5, cloud session)

03

Claude's plan: sign-up form + profile wall + interest matching

04

22:09 — draft PR, self-reviewed: 773 lines, 7 files, 0 frameworks

05

This morning: deployed on Vercel, translated to English on request

NOW

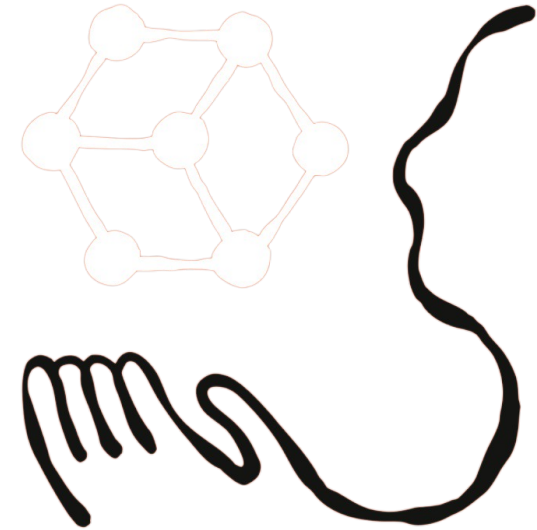

**You are the demo — scan the QR in a minute**

## THE RECEIPTS · WHAT IT TOOK

---

# 773 lines. One evening. Zero frameworks.

2 HTML pages · 1 serverless function · Upstash Redis · 1 human prompt

# Profile Wall

Everyone here today. Profiles marked **Match** share interests with you  
— go say hi!

Not signed up yet? [This way](#) →

You're in! 🍷 Below you'll see who's a good match for you today.
